Notice

November 3, 2022

Please be advised that milling and paving operations are scheduled to begin on Croton Avenue between Route 202 and Apple Hill Drive the week of November 7th and possibly continue into the early part of the following week. This work is anticipated to take several days to complete. In addition, the work is weather dependent and scheduling may need to be adjusted.

The Road is scheduled to remain open and passable to vehicular and pedestrian traffic. However, please expect delays and please exercise caution getting thru the construction zone. If possible, please seek alternate routes during the days the work is being performed.

Residences and businesses within the work area will have access to and from the properties during the course of the days the work is being performed.

If you live along Croton Avenue between Route 202 and Apple Hill Drive and garbage or recycling pick up is scheduled during the days the work is being performed, we ask that you please have your garbage cans and or recycling bins at the curb by 6 am the morning of scheduled pick up.

If you have any questions please do not hesitate to contact the Town of Cortlandt Engineering division at 914-734-1060.

Thank you.
