January 24, 2017

We will be holding a public forum, which will be taped, open to the media and the public to discuss our challenges with the announcement of the Indian Point nuclear plants closing in 2020 and 2021, announced on January 9, 2017 by Governor Cuomo and Entergy, owners of the nuclear plants. Entergy is our largest taxpayer and the economics, as well as, the loss of jobs, the reclamation of the site, the continued storage of the spent fuel rods and therefore the safety and security of this facility once closed must be addressed by the State and by Entergy.
