West Point Partners and Spectra Energy Projects

The Village of Buchanan will be hosting an informational meeting on the proposed projects by West Point Partners and Spectra Energy at the Buchanan Village Hall on June 10th at 7:00pm.

Spectra Energy is proposing to run a new 42 inch pipeline 1.2 miles beneath the Hudson River from Stony Point to Verplanck. Spectra Energy will then proceed to install a 42 inch pipe from Verplanck, through the Village of Buchanan and continuing to Yorktown Heights. The expanded pipeline will be located within 500 feet of the Buchanan-Verplanck School and within one mile of churches and thousands of private homes in the area.

West Point Partners is proposing to bury high voltage cables connecting the converter station in Athens, NY with a high voltage converter station in the Hamlet of Verplanck, New York. This converter station will have constant tonal noises which will emanate from this converter station which is in extremely close proximity to residential homes, a historic church, and local little league ball fields.

Please come out to the informational meeting and join officials from the Village of Buchanan, Town of Cortlandt and Hendrick Hudson School District in opposition to these projects based on safety concerns, environmental concerns, the likely impact upon future development and property values in Buchanan and the surrounding municipalities (Cortlandt).

Along with our town board members, task force and staff, I will be present at this important informational meeting. We are opposing and fighting these proposed projects that would impact our community with the Buchanan Mayor and Trustees and School officials.

**Please join us all at the Village of Buchanan Village Hall
Tuesday, June 10th at 7:00pm.**

Thank you!
Supervisor Linda D. Puglisi
