Commissioner of Health

BOIL WATER ADVISORY LIFTED

January 24, 2025

The boil water advisory has been lifted by the Westchester County Health Department for the following areas served by **Cortlandt Consolidated Water District** in the **Town of Cortlandt**:

All units at Building #11 through #31 on Scenic Drive

Test results of water samples taken by Cortlandt Consolidated Water District were satisfactory.

Since **Wednesday, January 22, 2025** these residents were strongly advised to boil all tap water at a rolling boil for a minimum of one minute prior to drinking it or using it to prepare food, wash dishes by hand or brush teeth. The boil water advisory was issued as a precaution to protect residents from potential contamination caused by ground water infiltration into water mains as a result of the reduction in water main pressure caused by the water main break/repair.

If you have any questions or concerns, please contact Cortlandt Consolidated Water District at (914) 734-1026 or Westchester County Health Department at (914) 813-5000.
