Cortlandt, NY 10567

Site Location:  
NewYork-Presbyterian Hudson Valley Hospital  
1980 Crompond Rd.  
Cortlandt, NY 10567

Dear Ms. Taylor,

NewYork-Presbyterian Hudson Valley Hospital currently has two operational MRI units. In order to continue to serve the community with the best possible care, an upgrade of one of the existing MRI Units is needed. Additionally, we will need to maintain two working MRI machines throughout the duration of the project to fulfill the needs of the patient population. In order to replace the existing MRI machine and continue current operations, we need to install a temporary trailer. The request to the planning board is for approval of the temporary trailer. It will be in place throughout the duration of the project. This trailer's location was chosen specifically to avoid having an impact on campus parking. Once we receive final approvals on the new MRI within the hospital, the trailer will be removed along with the new temporary structures, and the space will be restored to its current conditions.

Thank you,

**Omar Tejada**
